TERi™ Androgynous Geriatric Trainer

A comprehensive male/female elderly patient care trainer for medical simulation. Evolving from our GERi™/KERi™ full-body manikins, it has a more realistic look and feel accurately representing the human anatomy. Weight is distributed to represent a real patient for lifting and carrying.

Each version is affordable and durable with upgradable items.

- **Geriatric Patient Care Trainer¹** – General patient care, daily living assistance simulation platform.
- **Geriatric Patient Skills Trainer²** – Physical skills practice simulation platform with injection/IV, catheterization, cardiovascular and respiratory support.
- **Geriatric Patient Simulator³** – Comprehensive and complete simulation platform including patient monitoring capability.
